

**PDP PATTY PIENING LEADERSHIP AWARD
FOR LOCAL PRESIDENTS**

Leadership has been defined in many different ways, but the following definition is related to many of our members in AMVETS Ladies Auxiliary.

Leadership is “A learned behavioral skill, which includes the ability to help others achieve their potential as individuals and team members”. Leadership is perhaps the most significant factor to effectively work in AMVETS Ladies Auxiliary and to function as a good leader and team member on all levels of our organization. If leadership is weak, the Auxiliary can become unproductive, resulting in a lack of communication, loss of interest and chaotic meetings.
